In addition to the charms mentioned above, you can also add custom buttons, logos, and other things. Unlock the charms by displaying the menu bar. Easily change the colors for your charms and background. Innovative and fully customizable, My WCP CharmBar Customizer allows you to create unique and sophisticated charms. The new Windows 8 operating system has been released and the new Windows Store apps are now available in the Windows 8 store. Microsoft is focused on an OS that is going to be integrated into the ecosystem, bringing new devices and social experiences. The company is trying to bring innovation to a new user experience and, in this case, to the PC. The User Interface Design Company (also known as UI Designers), are creating some interesting UIs for the new Windows 8 operating system. A new design that is being considered is the Microsoft Charm Bar. The Charm Bar or the Microsoft Charm Bar is a bar which appears when you move the cursor over to the right side of the screen, in the lower-right corner. The Charm Bar can be reached by simply swiping the cursor to the right side of the screen, and it offers access to the Desktop. The Charm Bar can be accessed by swiping the cursor to the right side of the screen, and it offers access to the Desktop. To access the charms, you have to press the Windows key and the space bar simultaneously, in order to activate the Charms Bar, which will appear. You can use the charms to start the PC, start up applications, etc. The Charm Bar can be accessed by swiping the cursor to the right side of the screen, and it offers access to the Desktop. The Windows 8 Charm Bar, in fact, is more than a simple window, as it is a full screen that will be used to interact with the operating system, as well as

What's New in the My WCP CharmBar Customizer?

One of the new features that Microsoft has brought with the release of Windows 8 is the Charm Bar. With a simple mouse cursor swipe to the right side of your computer screen, you can search for applications and files on your computer, share content, open the Start Screen, manage devices and access operating system settings. It's basically a gateway to everything you frequently use on your computer. My WCP CharmBar Customizer is an application designed to help you fashion the look of the five charms in a simple and straightforward manner. It displays a user-friendly interface and allows you to customize the aspect of the charms by replacing the default icons with your own designs. You can set new images to take the place of the charms, in both default and mouse hover mode. To do so, all you need is to have the new icons available somewhere on your computer and select the charm you want to replace from the main window of the application. The entire process is very simple and straightforward. My WCP CharmBar Customizer also allows you to change the colors of the background and text, for both default and icon hover situations. Just like with the charm images, you simply click color you want to change and select it from a pallet. Moreover, to further personalize the Charm Bar, you can set a level of transparency for the colors you select. In case you want to, it's also possible to disable charm hints, logo smoothing and wash effects. All the improvements are made as soon as you click the apply button and if in the end it just doesn't seem right, you have the restore button to fall on. To sum things up, if want to customize the Charm Bar of your Windows 8 operating system, then you can try My WCP CharmBar Customizer.
