The feature-rich Easy Music Studio KeyMacro Karaoke Player is the perfect tool for beginners who want to sing karaoke using an easy-to-use interface. It includes a feature-rich and easy to use interface, eight video backgrounds, and three different karaoke configurations. Additional features include a one-button automatic calibration and the ability to edit and modify existing karaoke recordings. Intelligent Kinemacro, gives you the perfect karaoke pitch. Just press 'SING' button to sing! The Audio-Video Synthesizer is easy to use. It allows users to edit, mod, remix and replace any existing MIDI track. You can instantly create a new track by dragging in your audio, MIDI or audio-video clips. How to Use: The best way to sing karaoke is to sing along with the track (in-tune), and control the vocal pitch and volume via the pitch bend. Simply adjust the pitch bend and the volume controls of your audio track and sing along. You can also sing over another song. There are three karaoke configurations in the player: Full screen, half screen and windowed. In full screen, you can sing at the same time as the karaoke video. In the half screen mode, you can sing in a half of the video. Windowed mode gives you a small window in which you can sing. To calibrate the player, press the Calibrate button. If you want to sing with the program without karaoke, simply press the Sing button. There are eight video backgrounds: Moon, Beach, Garden, Cafe, City, Mountains, Desert and Jungle. You can choose one of them. Now you can use the 'Prev' and 'Next' buttons to scroll through the karaoke songs one after another. You can edit your recordings by pressing the Edit button. You can add an audio-video clip, move the audio/video clip, and change the pitch/volume of the clip. To end your recording, press the 'Stop' button. To play a song, press the 'Play' button. The number of notes you sing is displayed on the lower right of the screen. If you make a mistake, you will hear a little alarm. To resume your song, press the 'Sing' button. The program will automatically recalibrate itself. The program will automatically restart and begin from the first song 77a5ca646c
